## Professional Summary

---

Experienced software developer with a proven track record in developing and supporting enterprise software solutions across diverse markets, including Indonesia, Australia, and New Zealand. Demonstrated proficiency in English and collaboration within multinational teams. Strong academic foundation with a master's degree in computer science and experience delivering lectures at universities. Passionate about learning and keeping up with the latest technologies.

## Projects

---

### Cargo Chat for Outlook

*NTainers.co Pty Ltd, Sydney, Australia*

**April 2025 – Present**

Outlook add-in that integrates NTainers.co's Cargo Chat AI to summarize shipment emails, answer logistics queries, and generate smart replies directly in the inbox.

**Tools & Technologies:** Node.JS, TypeScript, MS Office JavaScript API, Fluent UI

**Position:** Senior Web Developer

**Responsibilities:**

- Develop the add-in with Node.JS TypeScript from scratch.
- Develop AI chat interface for NTainers.co Cargo Chat API.
- Utilize Office JavaScript API and ChatGPT to generate email reply in one click.

### Mappr.ai

*NTainers.co Pty Ltd, Sydney, Australia*

**March 2025 – Present**

AI-powered integration platform that automates data mapping, transformation, and workflow orchestration, enabling seamless, no-code system interoperability in real time.

**Tools & Technologies:** .NET, C#, jQuery

**Position:** Senior Web Developer

**Responsibilities:**

- Bug fixes and improvements on Workflow Studio that generates API routes for data transformation using LLM.

### NTainers.co

*NTainers.co Pty Ltd, Sydney, Australia*

**August 2025 – Present**

AI-powered logistics & supply chain management web portal that integrates with CargoWise TMS.

**Tools & Technologies:** .NET, C#, Entity Framework Core, MudBlazor

**Position:** Senior Web Developer

**Responsibilities:**

- Integrated Large Language Models and Document Intelligence into automated data extraction.
- Developed the new Cartage Network Integration feature to facilitate automated integration processes between clients and freight forwarders or cartage companies.
- Developed AI to UI feature that allows complex data to be processed by LLM to generate editable form.
- Developed Azure Function apps that facilitate AI-powered document extraction automations.
- Performed extensive refactor on complex Cargo Chat logic by implementing SOLID principles.

## CiAnywhere - Human Resources and Payroll

*TechnologyOne Corp, Brisbane, Australia*

**October 2021 – March 2023**

Human Resource and Payroll submodule of a CiAnywhere SaaS, tailored for diverse clients such as Australia, New Zealand, & Great Britain and caters specific requirements such as policies and taxation.
